National Poultry Congress Planned

Minneapolis, Minn.—Organization work for the National Poultry Congress, which will give its first exhibition in connection with the National Dairy Show at the Minnesota State Fair grounds, October 7 to 14, has been completed, and George W. Hackett, of Minneapolis, has been chosen first director of the congress. Mr. Hackett, who was the government poultry specialist in Minnesota during the war until promoted to the district superintendent of eight states, is at present divisional director of the American Poultry association.

Canada has been asked to cooperate in the Congress and it is planned to make it international in scope, Mr. Hackett said. The dairy show management, led by the paper editor, boys and girls' clubs and agricultural colleges throughout the country have promised support of the show. Work on the program of the congress has begun. Judging teams from leading agricultural universities will be given places as selectors. Speakers nationally prominent in the poultry industry will be placed on the daily programs, it is announced.

SERVICE CHARGE DECISION WILL BE MATTER OF WEEKS

were on the stand. None complained that he was being injured by the service charge. One of the witnesses for the prosecution testified receiving \$2.25 per 100 pounds for his milk that he was selling to the marketing company, not subject to the service charge nor on contract with the marketing company. That witness showed this dealer, not on contract, was paying \$2.25 a hundred for the milk and the milk and the marketing company were paying on an average of \$1.85 a hundred, service charge included.

"We do not want this prosecution. We are headed for big business and want to be sure at the start that we are right. We have investigation."

PREPARED ARGUMENTS AGAINST MILK COMPANY
Madison.—The state department of markets Tuesday started preparation of arguments to sustain its complaint against the Milk Producers' Cooperative association, an Illinois concern doing business with 4,500 Wisconsin farmers, on the ground that the service charge of the marketing department is discriminatory and a violation of the unfair trade practice regulations of the marketing law.

United Brethren Conference Ends

Monroe.—The annual conference of the Wisconsin United Brethren churches closed here Sunday with a merger service at the Immanuel Evangelical church. Bishop H. H. Post, Indianapolis, was the main speaker. Saturday was given to a discussion of the Christian program of education, especially in the theological seminary, Dayton, O., and Indiana Central college. At the latter college no dancing is allowed and tobacco in any form is forbidden, yet it has built up an enrollment of 430 in 15 years.

Are you a "high pressure" man?

Men of high nervous energy—rapid thinking, active, dynamic, and men often described as having "no nerves"—less rapid, but not less sure in thought and action, usually have different tastes in cigars. Mozart cigar is made especially for men of the first type. Such men usually find that "mild" tobaccos give them greatest enjoyment and no sensation of over smoking, just as moderation in meat eating brings them the best results. Mozart with its truly mild Havana fragrance is admirably suited to the energetic man—to the man who works at high pressure. We invite him to try Mozarts for a week—and watch.

A racking nervous headache? MENTHOLATUM chases it away.

Monroe.—Carl Schneider suffered a broken left arm and Mrs. C. F. Rackow, driver of the car, sustained serious injuries when an automobile, with a load of children returning from an inspection trip to Madison, went into the ditch near Madison. The auto was part of a conveyance which went to Madison under the auspices of the Monroe Kiwanis club.

Five men, three of whom were from Jefferson, escaped injury Saturday night when their steering wheel locked when they turned out for another machine, about three miles north of Jefferson. The automobile turned over twice and pinned the men beneath. One crawled out and assisted the rest. The car was a total wreck. The men returned to the scene the following morning to find that some one had set fire to the remains of the car. Clarence Pictorius, Jefferson, owner and drove the car. Other occupants were Hazel Weber and Harold Nubohm, Jefferson; Marvin Atwood and Charles Atwood, Oshkosh.

Miss Priscilla Ross, who is attending Milwaukee normal, spent the week-end at the home of her parents, Mr. and Mrs. Daniel Ross.

Mr. and Mrs. William Harper, Wauwatosa, Mr. and Mrs. William Duross and Mrs. Daniel Ross motored to Jamesville Sunday.

Miss Margaret Morris of Douglas is spending a few days at the Daniel Ross home.

Miss Olga B. Kerschenshteller, Mrs. Otto J. Kerschenshteller, Miss Bertha Stoppenbach and Miss Katherine Witt visited with relatives at Pewaukee Lake, Sunday.

A motoring party of five cars went to Lake Geneva Sunday for the day. The party consisted of the following Jefferson people: Mr. and Mrs. Otto C. Stoenraeber and family, Mr. and Mrs. A. J. Why Americans are losing height!

Prof. Osborn, President of Natural History, Museum of New York, and our greatest geologist tells us that Americans have lost 2 1/2 inches in height since 1880. Why? It is mainly a matter of feeding. We don't get enough of what the body really needs. Take for instance, the one food element, vitamin B. Scientists have shown that animals are stunted if deprived of this single element. An essential part of the average breakfast is almost wholly lacking in it—for there is no vitamin B in cake, sugar, candy, corn syrup, lard, butter, fine flour, rice, corn meal, almost none in meat and many popular breakfast foods, and not enough in milk.

"ZEP" is Rich in Vitamin B.

"ZEP" is rich in vitamin B that a thin child fed a stunted, adult overfed with "ZEP" is not only nourishing, but tasty. Crisp, toasted, ready to serve.

COUNCIL ADOPTS \$633,000 BUDGET FOR COMING YEAR
 (Continued from Page 1.)
 budget calls for no appropriation for park purchases.
 "With the \$15,000 on hand, it was believed advisable for the sake of economy to forego appropriating another \$5,000, as we now have enough to make the initial payment on any big tract we might want to buy," he said.

The next item in the general fund, \$129,781.31 to cover the bonded indebtedness, is nearly \$15,000 less than last year because of bonds and interest paid off this year. This figure is also subject to further reduction of a few thousand dollars; it was explained the actual amount to be known only when the \$70,000 school bond issue is settled.

Many Drastic Cuts.
 Although many appropriations in the general fund were cut for next year, the most drastic reductions were:

- City's share of paving cut from \$12,000 to \$1,200.
- Storm sewers, cut from \$10,000 to \$2,500.
- Roadway of streets cut from \$27,000 to \$12,000.
- Public garage cut from \$6,000 to \$4,000.
- Detection hospital, from \$2,000 to \$1,200.
- Police salaries, from \$27,370 to \$26,000.
- City engineer expenses, from \$500 to \$400.

Other appropriations were reduced in varying amounts, as follows: Council expenses, \$1,000 in 1922 to \$900 in 1923; mayor expenses, \$500 to \$200; city attorney expenses, \$500 to \$200; board of public works, expenses, \$300 to \$200; elections, \$3,500 to \$2,000; fire department expenses, \$20,000 to \$23,000; building inspector, \$100 to \$75; plumbing inspector, expenses, \$400 to \$200; police and fire alarm, \$500 to \$250; board of health, \$1,700 to \$1,500; sanitary inspector, \$500 to \$150; street commissioner expenses, \$75 to \$25; curb and gutters, \$450 to \$300; sidewalks, \$150 to \$100; crosswalks, \$270 to \$150; street sprinkling and cleaning, \$6,000 to \$3,500; weed cutting, \$450 to \$200; removal of snow and ice, \$300 to \$150; street lighting, \$26,000 to \$22,500; street machinery, \$8,100 to \$7,500; city plan commission, \$500 to \$400.

Few Funds Are Increased.
 Several items in the general fund have been boosted slightly for 1923 as follows:

- Special accounting and auditing, \$125 to \$150; fire department salaries, \$47,800 to \$58,100; poor relief, \$200 to \$250; street signs and guideposts, \$45 to \$100; municipal salaries, \$41,400 to \$42,740; tank and cavalry corps, \$1,500 to \$2,000.

The poor relief fund was raised \$100 at the request of F. E. Green who said this year's total was not sufficient to care for the needs. He administers the city's relief fund along with that of the Elks.

Through the appearance of H. S. Hargart, representing the Kiwanis club, and Capt. R. D. Harmon, the military companies, a change was made in the appropriation to the

tanks and cavalry. "In the past the city has given \$1,500 annually which has gone to the fair association for use of the grounds by the guardsmen. It was voted Monday night, to give the fair association only \$1,000 in the future and \$500 each to the cavalry and tanks."

36 Appropriations Unchanged.
 No change in the following appropriations: clerk and treasurer, expenses, \$1,100; assessment of taxes, expenses, \$200; city hall, \$2,500; police, expenses, \$1,500; city sealer, \$50; medical clinic, \$150; room, \$1,500; dental clinic, \$400; visiting nurse, \$150; Mercy hospital, \$500; water troughs and fountains, \$180; bridges and culverts, \$500; parks, \$5,000; memorial day, \$25; music in parks, \$500; miscellaneous, \$2,000.

Two items were cut out entirely, that for garbage disposal, in which a balance will be carried over, and that for swimming pools and playgrounds, \$1,500, which is provided for in the board of education fund of 1923 instead of in the general fund as usual.

The total of the 1923 general fund was \$347,936.31 from which was deducted estimated receipts of \$36,450 leaving a balance of \$391,386.31 to be raised by tax levy.

City Plan Move Batten.
 An eleven-hour attempt of the Chamber of Commerce to have the city provide \$2,000 to help pay for the \$5,000 Nolan city plan was again defeated, this time by a vote of 7 to 5, as follows:

MINNESOTA WILL ELECT KELLOGG

Mrs. Olsen Hampered by Her Sex; Will Run Third, Forecast.

By DAVID LAWRENCE
Copyright, 1922, by Janesville Daily Gazette.

St. Paul, Minn.—She is a dear little woman, makes fine speeches and is absolutely sincere but she will NOT be elected to the United States Senate.

The woman in the case is Mrs. Anna Dickie Olsen, perhaps the best candidate the feminine sex has put up for public office anywhere but when the people of Minnesota think of her they think of Senator Frank B. Kellogg; they can't help feeling that the latter would be more effective in representing their interests. There is hardly any doubt that Mrs. Olsen is handicapped by her sex. Women voters will support her to some extent but it is probable that the majority of women will vote for a man.

In fact, it is generally conceded that Mrs. Olsen will run third in the race and that Henrik Shipstead, the independent candidate of Non-Partisan League affiliation, will run second. Senator Kellogg's re-election is a certainty. This is due to a combination of reasons and would be true no matter how strong the democratic or independent candidates were. It is because Mr. Kellogg, recognizing that this is an agricultural state, has played the game for the farmer and either fathered or supported every measure which the organized farm interests have sought in Washington. For this he will receive the active help of the farm bureau and their numerous workers.

Not a Popular Campaigner.
Senator Kellogg, by the way, is not a popular type of campaigner. He didn't seek the nomination six years ago and didn't come here to make a single speech for himself in the primaries in which he was so overwhelmingly re-nominated. He conducts a quiet, dignified campaign. He never discusses his opponents, confining himself to the issues. Labor is more or less hostile to him for his vote against strikes when the Bach-Cummins transportation act was being debated and there are a few here and there who remember that Mr. Kellogg favored American entrance into the league of nations even with reservations. The people of this state, however, are for the most part anxious for international cooperation and they listen sympathetically to Kellogg's contention that he has no

CLINTON

The Gazette Correspondent.
Clinton, N. Y.—Mr. and Mrs. George A. ways favored steps that would help prevent war.

Six years ago when Senator Kellogg was elected by 75,000, the state was carried by Mr. Hughes against President Wilson by less than 400 votes. Minnesota participated in the general landslide for Harding. A republican who can win by 75,000 in a year when the Democrats nearly captured the state is strong enough to be assured of election this fall for while no one can say how the state of disaffection with the republican administration as runs through other states, it isn't deep-seated enough to cause a political upheaval.

Mr. Kellogg's friends are far more concerned about the candidacy of Mr. Shipstead than Mrs. Olsen. As for the latter she made one ill-advised speech in which she cited various votes of Senator Kellogg on Senate amendments which if taken by themselves would have made his record a bad one politically.

For Telling Half Truths.
The newspapers have attacked her for these half-truths however. And have cited the details of Mr. Kellogg's votes so that if anything, Mrs. Olsen lost a little ground by her speeches. Mr. Shipstead, however, is the other type of campaigner—the "man of the people" with faint praise and will unquestionably poll a big vote gathering to his fold radical Non-Partisan League, socialists, disaffected labor and other elements which naturally form the protest vote in any election. Mr. Shipstead's campaign, however, is not well organized nor well financed.

Her Campaign Fund.
Speaking of finances, Mrs. Olsen believes in getting money direct from the people. She tells them frankly that she is a lone campaigner and that her funds come from popular contributions. Collections at her meetings have been sufficient to finance her campaign. She is good looking and well-liked by her audiences but for representation in a powerful body like the United States Senate she needs the vigor of Kellogg, whose membership on important committees of vital importance to Minnesota gives him an advantage also over any newcomer, male or female.

WORKS FOR CHILD MUST KEEP WELL

Mothers in a Like Situation Should Read This Letter from Mrs. Enrico

Chicago, Illinois.—"I took Lydia E. Pinkham's Vegetable Compound for a serious trouble. I had tried doctors and all said the same—'I only felt the pain on my left side, but later I seemed to feel it on both sides. I am a power sewing-machine operator and have a little girl to support. I work in a tailor shop and that kind of work has been very slack this year and I am home part of the time. I do not like to take any chances, so I consulted my friends, and one lady said, 'Take Lydia Pinkham's medicine,' so I did. I have felt better right along and am in good enough health to go to work. I recommend your Vegetable Compound and Sanative Wash to all."—Mrs. MARY ENRICO, 459 N. Carpenter St., Chicago.

Often the mother is obliged to support her children and good health is necessary. Lydia E. Pinkham's Vegetable Compound is just the medicine you can depend upon. It is a medicine for women's ailments and the relief it brought Mrs. Enrico it may bring to you.

OUR OWN CLIMATE
Poetic dreamers sing of sea and sky, of soft
winds that kiss the cheek and touch with light
and caressing wing, the dying leaves on the trees.
But this is not of the rugged north where waves
dash against rocky shores and there is always a
chill in the breeze. The milding harmony rises to
a diapason when the poet changes his scenic view
from Mediterranean to higher latitudes. But here
in Southern Wisconsin within the last few weeks
we have run the gamut of weather and for days
now there has been a tenderness and gentleness
in the air that has seldom been equaled at this
time of the year. Autumn is always appealing in
this climate. Once in a while we get a long se-
ries of wet and drab days but usually with Nature
dressed in gorgeous array and all her hills clad
in holiday garments, fall is the most glorious of all
the seasons. We have no need for any other cli-
mate but our own. It is as nearly perfect as it is
possible to get, no matter how far the search may
extend.

A New York woman reads character by the
eyebrows. Some of her flapper clients will there-
fore have no character.

UPWARD TREND OF PRICES
Every report from everywhere carries one kind
of information in reference to prices of commodi-
ties. That is, the depth of low prices has been
reached. This does not seem to be confined to
America but is a universal condition over the
world. Import records show a steady upward
trend since the early summer months. Here we
see wages increased in many industries, steel and
cotton being the most important and having the
largest group. But in both instances wages had
been reduced below normal to meet the descend-
ing trend of prices universal at the close of 1921.
Manufactured articles depending upon foreign raw
materials are higher because the imported mate-
rials are higher. The same is true of exports.
In the case of 44 out of 75 articles reported in
July, prices at point of exportation were higher.
Here and there are isolated cases of lowered
prices, but taking the general list throughout,
there is no doubt but what we are to have ad-
vances in all prices on commodities, especially
those processed in manufacture. These prices too
began to move upward long before a change was
made in the tariff schedules. July reports for the
half calendar year in spite of the threatened
tariff, shows a lower market for iron and steel,
cotton duck, bleached cotton cloths, cotton hos-
iery, leather, boots and shoes, and a few other
articles entering into general use, as against De-
cember 1921. Evidences of an increased buying
power by reason of the employment of practically
all labor available and a better and more opti-
mistic feeling about business is general in the country.
Agriculture is slow in recovering, but must
come along with the rest, inevitably.

What some of these silver thrones need is a
new chauffeur.

MILLER OF NEW YORK.
With his nomination as governor of New York
and his statement which influenced the selection
of all other candidates on the ticket for the mi-
nor offices, that he would permit no man on that
ticket who was not in accord with the policies of
his administration, Governor Nathan B. Miller
has become the real boss of New York state and
already is being mentioned seriously as a candi-
date for the presidency. There is one very strong
reason why that presidential appeal for him will
not deeply interest the west. Governor Miller is the
leader in the opposition of the St. Lawrence canal.
He is not even neutral nor yet open to conviction.
He firmly opposes it and is the chief spokesman
against the project. This will be enough to make
his presidential ambition something to fight for
and not easily obtained.

"Fear a General War," is a newspaper head-
line. It would be a better war perhaps if we had
no generals.

UNCLE JOE GROWS OLD.
"I will make the auto journey now," said Uncle
Joe Cannon speaking of a long deferred trip home
by auto from Washington. March is a long way
off and I am growing old." And so Uncle Joe will
make the journey over the roads taken by his
father 50 years ago when the family emigrated
from North Carolina, while yet it is not too late.
"I am growing old," he says pathetically. Yet he
has lived in the most wonderful period of the
world. "My May of life has fallen into the serene
and yellow leaf," he might have added. But re-
turning from congress and active public life after 65
years of service, he has just begun to realize that
he is growing old. Perhaps Uncle Joe may not

ADVERTISING METHODS

By FREDERICK J. HASKIN

Washington.—Advertising as a force is not new.
It is as old as the race itself, but advertising
methods are constantly changing. Applied adver-
tising is the latest method. After years of wasteful,
misdirected efforts, they have learned to ap-
ply their advertising to selected markets instead
of scattering it extravagantly broadcast.

They are aware that the buying habits of the
people in various sections of the country differ
widely, because of well known differences in local
conditions. They know that in many cases climate
has an important influence upon the sale of a
product. So they study their markets.

If a man is the maker of electrical appliances,
he must consider the fact that in one section of
the country 75 per cent of the population live in
electrically wired homes, while in another only
8.4 per cent enjoy this advantage. He must also
bear in mind that many communities are supplied
with electric current only during the night. If he
is a manufacturer of automobiles or automobile
appliances, he must know the per capita distribu-
tion of cars.

The manufacturer of a luxury must select his
markets with the aid of figures showing income
tax returns, bank clearings, wages, rents, and other
statistics of earning and spending power. On the
other hand, the maker of a laundry soap or
appliance will be chiefly interested in the charac-
ter of a community's water supply.

The expert business man of today will not con-
sider placing an advertising contract until he has
made a preliminary investigation of market con-
ditions showing him his opportunities, section by
section, for selling people the kind of goods they
want and can use, and giving him an idea of the
amount of business he can expect. Then when he
has been able to estimate his probable profit, he
sets aside a certain percentage for advertising
costs.

Contrast this method with all the others that
have gone before it, and you perceive that adver-
tising at last appears to have been reduced to an
exact science. Originally advertising was defined
as the art of making known; later, it became the
art of making known to the largest number of
people, and today it has become the combined art
and science of making known to the largest num-
ber of selected people.

The first form of advertising developed by the
race was probably gossip. The early cave men
doubtless depended largely on their wives to ad-
vertise their prowess and possessions. Women,
because of their natural loquacity, inquisitiveness
and practicality, it is thought, did the adver-
tising for their tribes. The tribal artists were also
advertisers, as they made known in picture form
the customs, pursuits and possessions of their
clans.

Later, when the art of lettering was developed,
the poster advertisement was introduced. The
Greeks and Romans were especially fond of this
form of publicity, and the thoroughness of some
of their cities—namely Pompeii and Herculaneum—
were lined with picturesque handbills announcing
plays and gladiatorial shows, describing the
features of the fresh and salt baths, and informing
the public of real estate sales. Of articles lost and
found, of the disappearance of runaway slaves,
and absconding debtors, and of the latest police
regulations.

The public orator also held a position of great
importance and dignity. He made his rounds in
state, accompanied by a musician, and delivered
his announcements with flowery eloquence. Through
the middle ages the office of public orator
was likewise held in high esteem, but as com-
merce expanded the position deteriorated until
eventually hawkers and employed apprentices
took over the greatest part of his work.

In this connection it is interesting to note that
the average city of medieval times was not the
quiet haven romance has painted it, but was quite
as noisy as any modern metropolis. Compared to
the incessant, raucous clamor of the street hawk-
ers and apprentices of those days, indeed, the roar
of our 20th century street traffic is probably mild.
Press advertising has greatly mitigated the noise
of our modern cities. Back in the 15th century,
people lived in a perpetual babel of advertising.
The birth of press advertising dates from 1477,
when William Caxton introduced his printing
press into England. He started out by printing
advertising posters and pasting them on the walls
of taverns, town halls and churches, where they
created a tremendous sensation. Printed pam-
phlets and sheets were the next step until the
war between Charles I and Cromwell, when the
need for news concerning the combatants of both
sides became so acute that weekly journals came
into existence. It is recorded that one Nathaniel
Butter was the first editor to accept a trade ad-
vertisement, thereby initiating one of the great-
est sources of revenue ever known, and the accep-
tance of trade advertisements soon became gen-
eral. Even the early American journals contain-
ed advertisements of merchandise, such as tobacco,
boots, horses and slaves. All of these were of
extremely modest size, seldom occupying more
than four or five lines of inconspicuous print. At
that time, no one dreamed of the possibility of a
full-page ad.

In his book on "Scientific Distribution," Charles
Frederick Higham tells an amusing story of how
an early publisher of the New York Ledger, Robert
Bonner, happened to discover the value of a
large space ad. Mr. Bonner, it seems, wrote a
modest advertisement for the New York Herald
containing only eight words—"Read Mr. South-
worth's New Story in the Ledger," and marked
it for one line. His penmanship was so illegible,
however, that the Herald's mistake his "one line"
for "one page." Next morning, therefore the poor
man was horrified to behold an entire page de-
voted to the seemingly interminable repetition of
his eight-word line.

As he did not have money enough to pay for so
large an advertisement, he rushed hastily around
to the Herald office, hoping to have the mistake
corrected. But it was too late. Then, suddenly
an avalanche of orders began pouring in for the
Ledger, completely exhausting the first edition, so
that another had to be printed at top speed. In-
stead of being financially embarrassed, Mr. Bonner
actually made money on his full-page ad.

At first national advertising was thought to be
practical only through the medium of magazines,
but in the last decade national newspaper adver-
tising has come to be recognized as the most
economical and efficacious advertising method
ever invented.

Some things in this world are hard to under-

JUST FOLKS

By EDGAR A. GUEST.

LIFE GRANTS NO FAVORS
I've told it to him day by day.
That he must always pay his way.
Must even buy his right to play.

We've talked it over many a time,
There is no easy way to climb.
And now I'm putting it in rhyme.

Would he be skillful and attain
High place in sports or work's domain,
Then he must practice skill to gain.

Life gives us nothing ready-turned.
This is a lesson to be learned.
Its simplest pleasures must be earned.

Who would have friends from start to end,
Kind hearts on which he can depend,
Must do the duties of a friend.

I've told it often to the boy.
When trifling cares and tasks annoy,
There is no idler's road to joy.

Nothing, however small it be,
Can come to us without its fee.
From toil no hand is wholly free.

Life grants no favors. As we grow,
This we shall surely come to know.
Evil or good, we make it so.

DEPARTMENT STORE LOVE.

I know a girl who runs a personal department
store. She has a long list of suitors who adore
her. She likes them all. There's one who owns a
shoe store, another a millinery establishment,
another a theater ticket agency, another a hos-
pital, and so forth. When a bill arrives she
either calls for or calls on the creditor—ground
lunch or supper time. The young man pays the
bill and tears up his own and urges the
young woman to come soon again. If she doesn't
he calls him up and tells her what ails, new
shoes, hats, coats, etc., he has in stock.
Meet the department store lady.

MR. SALMON'S CONTENTS BURNED.

The dwelling and contents of Mr. W. J. Salmon
of Sumnerville, Hamilton county, were destroyed
by fire last Friday. He saved about 400 pounds
of meat. It is not known how the fire origi-
nated. The loss is estimated at \$20,000. No in-
surance.—Sanford (N. C.) Express.

CONFESSIONS OF A CYNIC.

I believe that any man who takes a one-pound
dog for a walk through the park is going a long
way to find nothing to do.

I have never yet seen a "beautiful society

I think people are foolish to kick on poor tele-
phone service. It has saved many a husband's
honor.

I have never used one of those paper blotting

I have an idea that if all the salaries the ac-
tors do not get were accumulated it would pay
the national debt.

I don't believe half the people know how the
other half live and I don't believe they care.

Who's Who Today

DR. ESTHER LOVEJOY.

The American relief work in fire-devastated
Sydney is in charge of a woman physician, Dr.
Esther Lovejoy, of New York and Oregon, pres-
ident of the American Women's Hospitals. Dr.
Lovejoy has had much ex-
perience in relief work. Dur-
ing the gold rush to Alaska
she was in charge of the hos-
pital at Fairbanks. Dr. Emil
Pohl, since de-
ceased, joined the gold seekers.
When they reached Alaska
they found a malignant
epidemic was raging,
and Dr. Pohl, who had com-
manded the largest saloon and
dance hall for an emergency
hospital, and succeeded in
stopping the plague.

Dr. Lovejoy saw service in
France during the World
War under the American Red
Cross society. She was born
in Seattle, Wash., the daughter
of Dr. and Mrs. J. W. Lovejoy.
She received her educa-
tion from the University of Oregon in 1904, and
that same year married Dr. Emil Pohl, of Port-
land. A son, Frederick Clayton Pohl, was born
but died in 1908, and Dr. Pohl followed him in
1910. Dr. Lovejoy was a member of the
League of Nations and held the post of the
Portland Health Department 1907-8. She mar-
ried George A. Lovejoy in 1912. She is the au-
thor of a book, "The House of the Good Neigh-
bor."

LOOKING BACKWARD

FORTY YEARS AGO

Oct. 3, 1882.—The broom brigade is practicing

WHERE HAY-FEVER ISN'T

One reason why hay fever is such
a side splitting affliction is because
only about 1,120,000 of us can afford to
have it, what with travel so expen-
sive and an overcoat. For the other
122,880,000 of us it is a great joke.

Since numerous weeds or plants,
whose habitats vary, are responsible
for hay fever in different individuals
and different times in the season,
from the earliest spring timothy or
orchard grass fever (April) to the last
grand ragweed sneeze before Novem-
ber frost, it is obvious that a place or
resort where the victim may be en-
tirely free is not necessarily a satis-
factory resort for another victim
whose sensibility may be for the
pollen of some weed which flourishes
about the resort. If a hay fever
victim is willing to go high enough,
as they say to the prospective guest
at the hotel office, he may find peace
and comfort of a kind, but this in-
volves very great limits in respect
to most of the hay fever weeds. Some
sufferers residing in small villages or
country towns find relief by visiting
large cities and remaining near
the heart of the city where there is
no pollen of any kind floats in the
air. Some find relief on a boat trip
over the great lakes, or a short sea
voyage.

Places enjoying more or less dis-
tinction as a resort for hay fever
sufferers are: Asheville, N. C., where
though not all sufferers from hay
fever are situated in many parts of
the country.

Q. What is an accredited secondary school? W. H. R.

An accredited secondary school
is a school which is equipped for col-
leges requiring at least 14 units for
unconditional admission and which
has been investigated and approved for
this purpose by one of the follow-
ing: the United States Bureau of
Education, a university or college
inspector or committee on admissions, an officer
or committees of an accrediting as-
sociation. Excess in the case of cer-
tain of the southern states, whose
high school courses are based on
seven years of elementary training, it
is understood that these 14 units rep-
resent secondary work above the
elementary eight-grade elementary
school course. It is assumed that the
curriculum of an accredited school
represents four years of 36 or more
weeks each; that at least three teach-
ers are employed; that the school
keeps up an adequate library and
laboratory equipment.

Q. Is the New Guinea bean edible?

If so, how should it be cooked? J. A.

A. The department of agriculture
says that the New Guinea bean be-
longing to the squash or gourd family.
Among the common names used to
designate this plant are sweet gourd,
squash and New Guinea bean. The New
Guinea bean is prepared in the same
way as summer squash.

**Q. How much does it cost the rail-
road to stop a train?** H. E.

A. The cost of stopping a train
depends on the length of the train and
the number of cars. It costs approxi-
mately \$1 to stop and start a train.

**Q. What was the first law regulat-
ing the hours of labor?** C. L. P.

A. Massachusetts was the first
state to undertake to limit the hours
of labor passing a law in 1847 that
made 10 hours a working day in fac-
tories for children under 12 years of
age. In 1847 the law was extended to
women.

Do You Take Proper

Care of Your Floors

And Floor Coverings?

Proper care of a finished floor is
economy.

Many times finishes applied at
considerable outlay have been
spoiled by neglect or because
wrong cleaning materials were
used on them.

Floor coverings when well
chosen and properly cared for are one
of the most attractive and useful
features of the furnishings of a home.

Rugs and carpets should be
cleaned by a professional cleaning
service. It is allowed to remain

Yanks and Giants Almost Equal on Offensive Strength

DOPE GIVES EDGE TO AMERICANS BY ONE POINT MARGIN

Busy Man's Sport Page

BY FRANK SINCLAIR
BETWEEN the hours of 2 and 5 p. m., starting Wednesday, the attention of millions of people in the United States will be focused on New York City. Thousands upon thousands will desert and neglect their work—from the office boy to the millionaire. Even the stenographer, and not a few housewives, will alter the routine of their duties.

THE WORLD series, greatest annual sporting event in the world, will be on. All else will be lost and forgotten in every town from the hamlet to the metropolis, will be whether the Yanks or the Giants will cop the bunting.

THE INTENT to which news associations have gone to report the series is amazing. Janesville will have the result a few seconds after each play is made on the Polo grounds. Every corner of the country will be flooded in a vast network of wires and radio to the diamond. Thousands of operators will be at their keys taking the dope. More than 2,000 newspaper will be printing the stories, play by play.

THIS year the series will be the best out of seven games in season. It will be the best of the season. This should make the contenders fight harder, knowing they must put forth every effort to win. The loss of one game, may mean the loss of the championship. Last year four defeats decided, while this year the nine that losses three will be the unfortunate one.

PITCHING will be the big factor. If all the "info" handed out by experts is to be taken into consideration, the Yanks have the edge. The Giants' moundmen are said to be of superior value than those of the American league team. This has been the big fault by the McGrawmen all season. The loss of Phil Douglas was a hard blow to the National league.

Coyne wins feature event at Hawthorne with 7,500 attending.

Willie Hoppe challenges Schaefer's billiard title.

Tot Off the Gridiron—Wisconsin taking no chances with Carleton, Richards having sent Assistant Coach, Braden to last Saturday's game to coach the team.

First games in the reorganized Knights of Columbus league took place Monday night with two of the teams getting away to a clean sweep. The De Sotos and the Honnepins took three straight from the Marquette and the LaSalle, respectively, both hitting better than 2,200.

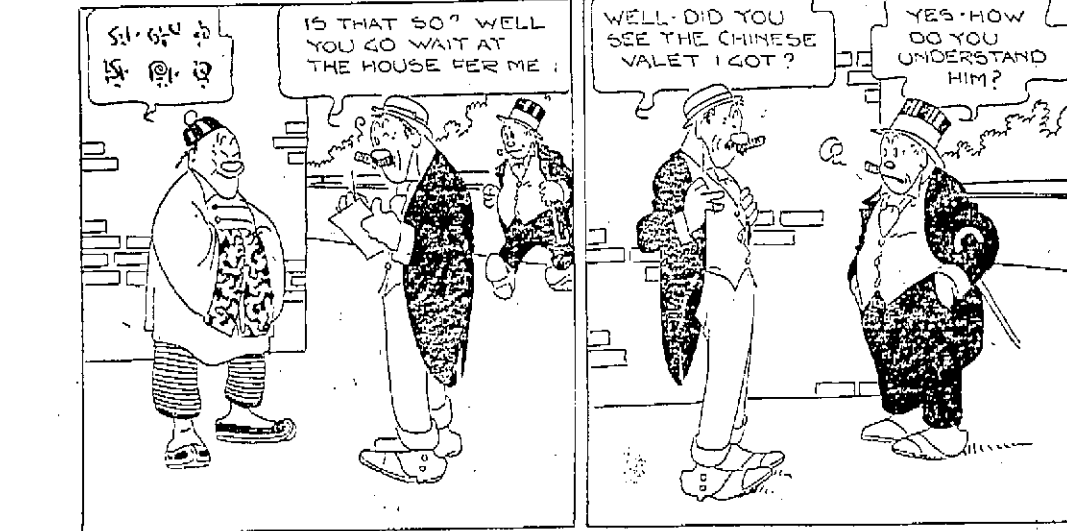

A. J. Huebel, vice president last year of the Janesville Bowling association, got away to a good start, barely coming under the elusive 600. He smashed the maples for 594, with games of 221-196-167. Second high honors went to Dan Cunningham with 204. H. Huebel hit 201 and Charles Dick came through with 200.

BRINGING UP FATHER

Bush, Nehf Pitch Opener; Crowds Yell for Tickets

New York.—The New York Giants and Yankees, standard bearers of the National and American Leagues, were tuned to conduct their "clash" in final workouts in preparation for the opening Wednesday of their second struggle for premier baseball honors. The Giants were victors last year in a tenacity fought world's series that lasted eight games. The laurels this year will go to the team winning four out of seven.

Bush, Nehf to Start. Bush, whom Huggins has picked to open the series, has been handicapped for a while by a knee bruise on his left foot, but the Yank manager assured during the team's workout Monday his sur twirler has practically recovered. He predicted "Bullet Joe" would be in prime condition for the first game.

Southpaw Art Nehf is expected to draw McGraw's opening assignment with experts inclined to regard Scott, who has done very well in his last few games, as his second choice.

Even Babe Ruth was unable to satisfy a last minute desire for tickets. The Yank slugger appeared at the Giants offices in his quest.

"Sorry Babe, but I can't even a hope left," he was told. He was but one of many.

Advance guards of delegations from all parts of the United States, Canada and outlying points were on hand early Tuesday. The influx was expected to reach its height Tuesday night.

Managers Are Silent. Promise of fair weather with ideal temperatures, not only for the opening game, but possibly for the rest of the week, checked many untoward moves from rain.

Neither manager had committed himself to prediction of victory. Not that either John McGraw or Miller Huggins lacks confidence in his team, but the fact is both clubs are fortified in close to an even basis with the breaks likely to swing the tide toward either camp.

Pitching is the outstanding factor in world's series triumphs. Records reveal an unusual proportion of shut-out twirling—close to a third of the games ending with one team scoreless with the high mark in 1905 when the Giants blanked the Athletics four times to win while the Mackinnon turned the shutout tables once.

Twirling Duels Last Year. Six of the eight games last year were pitched duels, with White Hoyt, Phil Douglas, Jess Barnes and Art Nehf in the spotlight. Hoyt, Huggins has five starts—Hoyt, Mayes, Shawkey and Jones to oppose Scott, Nehf, McQuillan, Barnes and Ryan of the Giants, Bush and Shawkey stand above the rest in season performances. Hoyt will have the

KIENOW CATCHES ANOTHER BIG ONE

Not content with catching a 35-inch pickerel, Bill Kienow of Janesville snatched forth and hooked a 20-inch pike. He caught the fish at Lake Koshkonong, using a live frog as bait. The fish weighed five pounds, two ounces, and had a girth of 12 inches. It was entered in Premo Brothers' contest. The season winners are to be announced this week.

Many High School Games Are Booked for Next Week-End

High schools of southern Wisconsin are tuning up for the second week of football next Friday and Saturday. Four games are scheduled for Friday and five for Saturday.

The Blues of the Bower city are down to clash with Jefferson on the local gridiron. Last year, Janesville high defeated the boys from the Jefferson county seat 25 to 7 in their fourth game of the season. No comparative dope is at hand for so early in the season. The locals won their opening game from Harvard Saturday, 14 to 0. Jefferson lost his first contest on the same day, 33 to 0, to Watertown. The Jeffs claim that the greater weight of the Goshlins made it impossible for them to gain.

The other games scheduled for Saturday are Evansville at Fort Atkinson; Elkhorn at Delavan and Waterloo at Stoughton. It will be Evansville's first appearance on the field since 1920. Fort took the opener from Cambridge last Saturday, 51 to 0. Elkhorn is in fine trim, having won its first game, beating Whitewater city high, 14 to 0. Stoughton won last Friday from Milton Union, 27 to 0.

Friday's games are Edgerton at Milton; Walworth at the Delavan School for the Deaf; Mt. Morris at Whitewater city and Darlington at Stockton. The Edgerton-Milton game brings together two defeated teams, Edgerton having lost last week to Monroe, 12 to 6.

Union High Books 2 Double Headers

[SPECIAL TO THE GAZETTE] Milton.—With two teams in the field Milton Union high schools will play two double headers this fall. They will be with Edgerton here, Oct. 4, and at Fort Atkinson, Oct. 20. The schedule: Oct. 4, Edgerton (double header) at Milton; October 20, Fort Atkinson (double header) at Fort Atkinson; November 8, Walworth at Walworth; November 15, Whitewater City High at Whitewater. Games not definitely settled; November 3, Lake Mills at Milton; Nov. 24 or 30, Evansville at Milton.

PLATTEVILLE NORMAL TRIMS FENNIMORE, 54-0 [SPECIAL TO THE GAZETTE] Platteville.—The local normal school defeated Fennimore high in a practice game here Saturday, 54 to 0.

CALL CITY LEAGUE TO MEET WEDNESDAY All members of the city bowling league are called to a meeting to be held at the Chamber of Commerce at 7:30 p. m. Wednesday. The business on hand will include election of officers and organization for the coming season.

Badger Eleven Shows Power

Madison.—Wisconsin displayed a brand of football during scrimmages between the varsity and second football squads Monday afternoon that shows the Badgers to possess strength noticeable in the early season. Led by Captain Williams, the first team tore up the seconds for long gains through the line and around the ends, while "Shorty" Ears executed beautiful passes to Irish and Tebbell. The way these two ends pulled the ball out of the air and got it on long runs, gave encouragement to the hundreds of fans. The stiff looking line is beginning to develop. It took the second team backs eight downs to go nine yards through the Badger forward wall. Injuries are keeping Kohnfeldt, veteran guard, out of practice, with Harris, fullback, also on the side lines for the present.

Local Rotary Golf Players to Madison

Golfers of the Janesville Rotary club will pay a visit to Madison Wednesday for a match with the Rotary club of that city. Last week Madison came here with defeat in a triangular event, Janesville coming out on top. It is expected that about 15 local linksmen will make the trip.
